eAppendix. Sample Patient Education Handout for Same-Day Discharge Following PCI

This supplementary material has been provided by the authors to give readers additional information about their work.
Sample Same Day PCI Discharge Form

Heart Stent Procedure Discharge Instructions

Dear ___________

Your doctors have performed a percutaneous coronary intervention (PCI) or stent placement in your coronary artery.

You had ___ blockage(s) that required treatment and ___ stent(s) were used

**Before going home,** we would like to make sure that the following items have been discussed:

- It is very important that you take your prescribed medications, especially the ones to prevent the stent from blocking
- If any of these medications are new, please pick them up on the way home or get an extra pill before you leave
- Please have someone stay with you tonight to watch you
- Please rest until tomorrow morning. No working, lifting, exercising, driving

**If you notice any of the following complications, please contact us:**

- Chest pain/shortness of breath
- Bleeding
- Rash
- Difficulty walking or using your hand
- Pain, fullness, swelling or bleeding where the catheters were placed

If you have any questions or concerns, please contact your heart team at _______

We have contacted your cardiologist Dr. __________.

Your appointment is scheduled for __________ at __________
