Supplementary Online Content

eFigure. Algorithms A and B

This supplementary material has been provided by the authors to give readers additional information about their work.
Supplemental Figure

eFigure. Algorithm A denotes a model in which PCPs initiate topical combination therapy. Oral antibiotics, hormonal therapy and oral retinoids are rendered by dermatologists. Algorithm B denotes a model in which PCPs initiate topical combination therapy as well as oral antibiotics. Hormonal therapy and oral retinoids are rendered by dermatologists in this model. All patients failing PCP treatment within these models would be referred to dermatologists for further management.
