eFigure 1. Example of Images Used in the Survey
eFigure 2. Respondent Responses for the Different Image Types

This supplementary material has been provided by the authors to give readers additional information about their work.
Figure 1. Example of Images Used in the Survey.

eFigure 2. Respondent Responses for the Different Image Types

Photo stages 0, 1, 2 & 3 indicate original image, simulation of dorsum only, simulation of dorsum and tip, combined, and simulation of tip, respectively. The box plot represents medians, interquartile ranges and ranges for the responses of age, attractiveness, approachability, healthiness, intelligence and successfulness across all 4 types of images.
