Supplementary Online Content

eFigure. Study Design and Flow

This supplementary material has been provided by the authors to give readers additional information about their work.
Visit 1: Screening and randomisation

Cylinders delivered to patient’s home

- Attack 1: Treatment 1
- Attack 2: Treatment 2
- Attack 3: Treatment 1
- Attack 4: Treatment 2

For each treatment, patients filled a diary with primary and secondary endpoints and adverse effects. For any adverse and serious adverse effects, patients were asked to contact the investigators.

Patients returned the diary by post

Diary data entered into database

- primary and secondary endpoints

Patients did not return the diary

Followup phone call or letter

- adverse and serious adverse events
