eFigure. US Areas With the Highest Burden of HIV Diagnoses

This supplementary material has been provided by the authors to give readers additional information about their work.
Forty-eight highest burden counties, Washington, DC, and San Juan, Puerto Rico, that accounted for more than 50% of new HIV diagnoses during 2016 and 2017 are indicated by the dots on the map. Seven states with substantial rural burdens of HIV are indicated by the shaded areas.
