

Data Sharing Statement

Munch. Effect of 12 mg vs 6 mg of Dexamethasone on the Number of Days Alive Without Life Support in Adults With COVID-19 and Severe Hypoxemia. *JAMA*. Published October 21, 2021. doi:10.1001/jama.2021.18295

Data

Data available: Yes

Data types: Deidentified participant data

How to access data: The COVID STEROID 2 trial Management Committee (contact@cric.nu).

When available: beginning date: 08-01-2022

Supporting Documents

Document types: None

Additional Information

Who can access the data: Data will be available to researchers

Types of analyses: A methodologically sound proposal for the purposes of achieving specified scientific aim

Mechanisms of data availability: To gain access, the researchers will need to sign a data access agreement and to confirm that data will only be used for the agreed purpose for which access was granted. The research proposal will be reviewed by the COVID STEROID 2 trial Management Committee.
