Data Sharing Statement

**Data**

**Data available**: Yes

**Data types**: Deidentified participant data, Data dictionary

**How to access data**: The data from all sites were consolidated by a NIH/NIDA-funded Data Coordinating Center which has created a cleaned, de-identified data set (from which these analyses were performed). Investigators interested in accessing data sharing may contact the Data Coordinating Center at ruralopioids@uw.edu.

**When available**: beginning date: 06-01-2022

**Supporting Documents**

**Document types**: None

**Additional Information**

**Who can access the data**: Researchers whose proposed use of the data has been approved.

**Types of analyses**: Any analysis.

**Mechanisms of data availability**: After approval of a proposal.
