

## Supplementary Online Content

Kantarci K, Schwarz CG, Reid R, et al. White matter integrity determined with diffusion tensor imaging in older adults without dementia: influence of amyloid load and neurodegeneration. *JAMA Neurol*. Published online October 27, 2014. doi:10.1001/jamaneurol.2014.1482.

**eFigure.** Fractional anisotropy of the fornix and global cognitive  $z$  scores

This supplementary material has been provided by the authors to give readers additional information about their work.

**eFigure.** Fractional anisotropy of the fornix and global cognitive z scores. The scatter plot displays the relationship between fractional anisotropy of the fornix and global cognitive z scores. The least-squares fit for the entire group is shown with a black line. The least-squares fit for the cognitively normal (CN) group is shown with a blue dashed line and for the mild cognitive impairment (MCI) group with a red dashed line.
