This supplementary material has been provided by the authors to give readers additional information about their work.

e-Figure 1. Flow chart of the study.

e-Figure 2. Box-and-whisker plots showing time to development of disease milestones and death from diagnosis in years by Parkinson's disease subtypes.

Box represents 25th and 75th percentiles with the line showing the median value. Whiskers represent adjacent values and outliers are represented by dots. DM, diffuse malignant; IM, intermediate; MMP, mild motor-predominant.
