eFigure. Survey Regarding Time-Sensitive Eye Care During the COVID-19 Pandemic

Q1. In what setting do you live:

Independently An assisted living community A nursing home or skilled nursing facility Other

Q2. Who do you live with?

Alone With a spouse/domestic partner With a child or children Other

Q3. In general, would you say your overall health is:

Excellent Very good Good Fair Poor

Q4. At the present time, would you say your eyesight (with glasses or contact lenses, if you wear them) is:

Excellent Good Fair Poor Very poor Are you completely blind?

Q5. How concerned are you about permanent vision loss from missed eye injections due to the novel coronavirus, also known as COVID-19?

Very concerned Moderately concerned Somewhat concerned Slightly concerned Not at all concerned

Q6. Do you personally know anyone who has gotten the COVID-19 infection?

Yes No

Q7. How likely do you feel you are to be exposed to COVID-19 when you visit the eye clinic for your eye injection?

Extremely likely Likely Neutral Unlikely Extremely unlikely

Q8. In order to maintain your current level of vision, what chance of being exposed to COVID-19 would you be willing to accept?

1 in 10 1 in 100 1 in 1,000 1 in 10,000 1 in 100,000 1 in 1,000,000

or Not willing to assume any risk

I am going to ask you two questions about vision and living a long life. These questions may sound unusual, but they help us understand how much people value their vision. I would appreciate your best guess on these questions. There is no “right” answer and each person’s answer will be different.

***Q9. How many more years do you expect to live? _____**

***Q10. (read A or B depending on visual acuity)**

A. (if 20/25 or better in both eyes) Of your remaining _____ years, how many would you be willing to trade in order to guarantee good vision in both eyes? _____

B. (if worse than 20/30 in at least one eye). Of your remaining _____, how many would you be willing to trade for permanent, perfect vision (20/20) in both eyes? _____

Q11. Are you currently employed?

Yes No

Q12. Which of the following describes your level of education?

Some high school Finished high school Some college Finished college Advanced degree

Q13. Which of the following best describes your race or ethnicity?

White/Caucasian Black/African-American Asian/Pacific Islander Hispanic/Latino Other

*Q9 and Q10 will be reported separately and are not included in this manuscript

**For the multivariate regression analysis, questions were consolidated into pre-specified binary response categories deemed *a priori* to be clinically meaningful by the investigators.

Q1: Independently vs. Assisted living, Nursing home, or Other

Q2: Alone vs. With spouse/domestic partner, With a child or children, or Other

Q3: Fair or Poor vs. Good, Very good, or Excellent

Q4: Fair, Very poor, Poor, or Completely blind vs. Fair, Good, or Excellent

Q5: Very concerned, Moderately concerned vs. Somewhat concerned, Slightly concerned, or Not at all concerned

Q7: Extremely likely, Likely vs. Neutral, Unlikely, Extremely unlikely

Q8: 1:100,000, 1:1,000,000, or Not willing to assume any risk vs. 1:10, 1:100, 1:1000, or 1:10,000

Q12: Finished college or Advanced degree vs. Some high school, Finished high school, or Some college
