Supplementary Online Content

eFigure 1. Enrollment of Participants
eFigure 2. Spherical equivalent refractive error (RE) in 2008 and 2010 by 5-year age intervals
eFigure 3. Axial length in 2008 and 2010 by 5-year age intervals

This supplementary material has been provided by the authors to give readers additional information about their work.
**eFigure 1.** Enrollment of Participants

```
1141 Persons selected to undergo biometric testing in 2008

931 Underwent biometric testing in 2008
210 Underwent biometric testing in 2008

763 Present in 2010
121 Not present in 2010

47 Ineligible for analyses (previous surgery or media opacities)
884 Eligible for analyses in 2008

745 Eligible for analyses in 2010
182 Ineligible for analyses (intraocular or refractive surgery)
```
eFigure 2. Spherical Equivalent Refractive Error (RE) in 2008 and 2010 by 5-Year Age Intervals

The shaded boxes indicate the interquartile range, the horizontal line within the box indicates the median, and the limit lines indicate 95% CI. Data on 64 outliers for 2008 and 57 outliers for 2010 were not included. D indicates diopter
**eFigure 3.** Axial Length in 2008 and 2010 by 5-Year Age Intervals
The shaded boxes indicate the interquartile range, the horizontal line indicates the median, and the limit lines indicate 95% CI. Data on 33 outliers for 2008 and 38 outliers for 2010 were not included.
