eFigure. Photomicrographs of 3 different tissue specimens

This supplementary material has been provided by the authors to give readers additional information about their work.
eFigure. Photomicrographs of 3 different tissue specimens

Tissue covered with stratified squamous epithelium stained for Arg-1 (a), iNOS (b), CD68 (macrophages) (c) and CD3 (T-cells) (d). Granulation tissue stained for Arg-1 (e), iNOS (f), macrophages (g) and T-cells (h). Tissue covered with ciliated columnar epithelium stained for Arg-1 (i), iNOS (j), macrophages (k) and T-cells (l). (High power micrographs are shown in big squares in the lower part of figures (a)-(l). Small squares indicate enhanced tissue sections.)
